Cold Weather/Winter Tips

We recommend cleaning your deck in the fall so any dirt and debris is removed before the coldest weather hits. See [“How to Winterize your Vinyl Deck in 3 steps”](#).

Speaking of cold weather, if your Duradek is being installed in the winter months, don’t be alarmed if bubbles appear. This is normal and nothing to be overly concerned about. See details in [‘Winter Decking Considerations’](#) and winter deck care on our [care and cleaning page](#).
